Nemr is a Lebanese/American comedian who is credited with establishing and pioneering the stand-up comedy scene throughout the Middle East. His latest tour was met with unprecedented success, selling out prestigious venues such as Caroline's in New York, the Wilbur Theatre in Boston, and the Novo in Los Angeles, making his tour the first global comedy event to successfully stretch from the United States to the Middle East. Breaking down cultural barriers with hilarity and sharp insight is Nemr's signature comedic style.
